1. Background

With this solicitation, Southern California Edison Company ("SCE") seeks to purchase Resource Adequacy ("RA") Capacity for delivery periods starting August 1, 2020 to December 31, 2024 from all eligible supply sources including (1) RA capacity only offers, (2) RA capacity with a limited tolling agreement, (3) RA capacity through a power purchase agreement (PPA) for firm plus as-available capacity from existing or repowered combined heat & power (CHP) facilities, and (4) import capability transfers (the "DEC2019 RA RFO, "RA-RFO", or "Solicitation")

SCE will also seek to sell RA Capacity for Delivery Period beginning April 1, 2020 and ending on June 30, 2020, where an executed enabling agreement exists, and the SCE pro forma confirmation is accepted.

The purpose of this document (the “RFO Instructions”) is to provide “Respondents” with the schedule, the offers submittal, evaluation and selection process, and to set forth the terms and conditions of Respondents’ participation in this RFO. This RA-RFO will access all offers on a competitive basis, and utilize an expeditious offer selection notification for clear and definitive offers, as well as a shortlisting process to enable a short window to clarify or refine certain more competitive product offerings. Contract execution will proceed sequentially after offer selections.

Capitalized terms not defined in these RFO Instructions have the meanings ascribed to them in the applicable Exhibits hereto or the current California Independent System Operator Corporation ("CAISO") tariff and protocol provisions, including any current CAISO-published “Operating Procedures” and "Business Practice Manuals,” as amended or supplemented from time to time (the "CAISO Tariff").

SCE will utilize an independent evaluator, Merrimack Energy (the “IE”), in connection with this RFO.

The confidentiality provisions of these RFO Instructions and the Non-Disclosure Agreement, as set forth in Exhibit A, which must be partially executed and submitted to SCE by Respondent no later than the Offer Submission Deadline, limit Respondents’ ability to engage in communications with any other actual or potential participants in the RFO concerning this solicitation, price terms in Offers, and related matters.

In the event that a Respondent desires to (a) act as a marketing agent for a third party, (b) act as a credit sleeve for a third party, or (c) otherwise act as an agent or representative of a third party, in each case with respect to any Offer in the RFO, such Respondent and the
third party such Respondent is proposing to represent should contact SCE and seek a waiver or amendment of such confidentiality provisions, which SCE may or may not grant in its sole discretion.

Such a Respondent and the third party such Respondent proposes to represent should be prepared to provide SCE with a written description of the proposed relationship between such parties and the proposed structure of their Offers. SCE reserves the right, in its sole discretion, to disqualify those Respondents that have not complied with the provisions of this paragraph.

2. Products Solicited

The products solicited within this RFO include (1) RA Capacity Only, (2) RA with dispatchable capacity through a limited tolling agreement (“Toll”), (3) RA with firm (baseload) plus “as-available” capacity from existing or repowered CHP facilities (“CHP”), and (4) Import Capability Transfers (each of the products (1) through (4) listed above are referred to as a “Product” and collectively as the “Products”). The RA Capacity must be from specifically identified existing generating units that have a Net Qualifying Capacity (“NQC”) assigned by the CAISO and must be able to count toward SCE’s RA requirement, new generating units that have not completed construction and do not have an NQC are not eligible to participate in this Solicitation. Import Capability Transfer must be for specified CAISO interties which can deliver RA into the CAISO Balance Authority Area. RA from all Products must be eligible for inclusion in both or either the Year-Ahead and Month-Ahead compliance filings with the California Public Utilities Commission (“CPUC”).

All Respondents providing Offers for the sale to SCE of a Product must submit an RA Capacity Only Offer (i.e., Product (1) listed above), except those Respondents providing Offers for the sale to SCE of Import Capability Transfers. Respondents are encouraged to submit multiple Offers with varying delivery periods and contract options. These varying Offers could include different volume options/product types with various delivery terms (i.e. monthly, Q3s 2020-2024, year-round, etc.). Such variations may enhance a Respondent’s ability in receiving a final award within the RFO. Respondents are not permitted to increase their Offer price for any Product after the Offer Submission Deadline.

RA Capacity Only Offers must be a unit specific Offer, for RA Capacity-only and does not include energy or ancillary services associated with the unit.

Respondents submitting Offers to sell RA Capacity to SCE must either own or have a contractual right to the qualifying and deliverable RA Capacity for the delivery period as specified in the applicable Confirmation.

Offers to sell RA Capacity to SCE shall be transacted through the terms described in the RA Capacity Confirmation (the “SCE Pro Forma RA Confirmation”), attached hereto as Exhibit B1, which shall be a confirmation under an executed EEI Master Power Purchase & Sale Agreement, Cover Sheet, EEI Collateral Annex, and Paragraph 10 to the Collateral Annex, forms of which are attached as Exhibit E (an “EEI Agreement”) between SCE and Respondent in accordance with the RFO.
Schedule set forth in Section 6 of these RFO Instructions (the “RFO Schedule”). For purposes of these RFO Instructions, the EEI Agreement may be referred to as an “Enabling Agreement”, and the Enabling Agreement preferences and requirements set forth in this paragraph are referred to as the “Enabling Agreement Requirements”.

**SCE Sale – RA Capacity Only**

Respondent may Offer to purchase from SCE specified quantity of CAISO System RA Capacity with second quarter (Q2) 2020 delivery period starting April 1, 2020 to June 30, 2020.

Offers to purchase from SCE RA Capacity shall be strictly transacted through the SCE Pro Forma RA Capacity Confirmation (Exhibit B1) without any deviation including those relating to credit requirements, which will necessitate an existing executed EEI Master Power Purchase & Sale Agreement, Cover Sheet, EEI Collateral Annex, and Paragraph 10 to the Collateral Annex.

**2.2. Tolling Agreement**

SCE will consider Toll Offers from existing resources, that are dispatchable to the full contract capacity of the unit within 15 minutes, and that have Full Capacity Deliverability Status (“FCDS”). Delivery Periods offered can commence as early as August 1, 2020 and must end no later than December 31, 2024 (a maximum of 52 months). Toll Offers from once-through cooling (OTC) units are not eligible; provided, OTC units are eligible to submit an RA Capacity Only Offer to this Solicitation; provided further, such Confirmation is subject to approval by the California Public Utilities Commission (CPUC) and the State Water Resource Control Board (SWRCB).

The Toll Product includes all Energy, Capacity, Capacity Attributes, Resource Adequacy Benefits, Ancillary Services, Ancillary Services Capacity, and any other benefits generated by, associated with or attributable to the resource throughout the Delivery Period.
2.3. CHP PPA

SCE will consider CHP Offers from existing or repowered CHP facilities, that have both a firm (baseload) and an “as-available” capacity component\(^1\), and with a nameplate capacity that is greater than 5 MW.

SCE may select, in its sole discretion, which of these pricing options, if any, SCE chooses as part of this RFO.

CHP Offers shall be transacted through the terms described in the CHP Agreement, attached as (Exhibit C) or the tolling agreement (Exhibit D) as starting and working templates. and all other Site Host Load throughout the Delivery Period.

2.4. Import Capability Transfer Purchase

Respondent may submit an Offer to sell to SCE the right to deliver RA from specific 
CAISO interties into the CAISO Balance Authority Area. These rights are CAISO

Respondents submitting an Offer to sell this Product to SCE must either own or 
have the contractual right to the Product for the Delivery Period specified in Table

Offers to sell to SCE the Import Capability Transfer Product shall be transacted 
through the terms described in the “SCE Import Capability Transfer Confirmation,” 
attached hereto as Exhibit C, and executed in accordance with the Enabling 
Agreement Requirements.

2.5. Other Product or Offer Considerations & Limitations

- All Respondents providing Offers for SCE to purchase a product (e.g. 
  through a Toll or CHP agreement) must in addition submit a RA Capacity 
  Only Offer.

- Respondents are allowed and encouraged to submit Offers for more than 
  one Product and multiple Offers for the same Product.

- Respondent must state all volumetric limitations in the applicable Volume 
  Limits tab of the Offer Workbooks. Except for setting volumetric limitations,
Offers containing any contingencies may be considered nonconforming and ineligible for consideration.

- Local and Flexible attributes associated with RA Capacity will become part of any transaction resulting from this RFO.

- All Product categories may be proposed in partial MW increments that are equal to or greater than the minimum volumes specified in each table with no more than two decimal places. For example, an Offer for 1.23 MW would be acceptable, whereas an Offer for 1.234 MW would not be acceptable.

- No contracts awarded in this Solicitation shall be greater than 52-months in duration.

- Respondents are not permitted to increase their final Offer price for any Product after the Offer Submission Deadline.

- New facilities are not eligible to participate in this Solicitation.

- Once-Through Cooling (“OTC”) Units, as described in the California State Water Resources Control Board (“SWRCB”) policies, can be submitted as an RA Capacity Only offer, at Respondent’s discretion, delivery periods that end prior to such OTC Unit’s OTC compliance date (the “OTC Compliance Date”) and/or delivery periods that end past the OTC Unit’s OTC Compliance Date. Any awarded contracts that are past such OTC Unit’s OTC Compliance Date must be submitted to the CPUC for approval via a Tier 3 Advice Letter and contingent upon SWRCB granting an extension to the OTC Compliance Date.

### 3. Eligibility Requirements

Respondents to this RFO must comply with the requirements in these RFO Instructions. Respondents that fail to comply with the requirements in these RFO Instructions may be deemed ineligible and their Offers may not be considered.

SCE, in its sole discretion, may change the terms, requirements, and schedule of this RFO.

---

2 OTC Unit’s OTC Compliance Dates can be found on the SWRCB website at: [http://www.waterboards.ca.gov/publications_forms/publications/factsheets/docs/oncethroughcooling.pdf](http://www.waterboards.ca.gov/publications_forms/publications/factsheets/docs/oncethroughcooling.pdf)
By participating in this RFO the Respondent specifically acknowledges the following:

1. If Respondent is deemed eligible to submit an Offer, any Offer submitted by Respondent is considered a final Offer and cannot be modified by Respondent. SCE however reserves the right to clarify and further refine all offers at its sole discretion, including but not limited to Product type, parameters, price and quantity.

2. Respondents may enter into limited negotiations to execute an agreement with SCE. Respondents are strongly discouraged from making any substantive changes to the form of Enabling Agreements or Confirmations attached as Exhibits to these RFO Instructions (collectively, the “Agreements”). Extensive modifications to these Agreements will not be accepted. SCE, in its sole discretion, will determine whether any proposed modification or alteration to these Agreements are material and reserves the right to decline to execute any agreement with a selected Respondent for any reason.

Mutually inclusive Offers across generating units of the same RA local attribute are allowed (e.g., Offer A for generating Unit 1 (Big Creek-Ventura) and Offer B for generating Unit 2 (Big Creek-Ventura)). If making a mutually inclusive Offer across generating units, Respondent must also submit discrete Offers for those generating units. SCE will have the option to either select the mutually inclusive Offer or the discrete Offers separately.

4. **Credit Requirements**

SCE requires that Respondents post collateral (either cash or a letter of credit) for SCE’s exposure above an unsecured credit line, if any. Only investment grade-rated Respondents are eligible for an unsecured credit line. Alternatively, a Respondent may be eligible for an unsecured credit line by providing a guaranty from an investment grade-rated corporate parent in substantially the form of the Guaranty Agreement attached hereto as Exhibit F (the “Guaranty”). SCE will not accept a Guaranty from third parties that are not affiliated with the Respondent. Respondents that are not rated or are rated below investment grade shall be required to post collateral for all of SCE’s exposure in addition to an independent amount.

SCE is a California load-serving utility with investment grade credit ratings and substantial tangible net worth. Any Offer that requires SCE to post collateral will be rejected by SCE.
SCE reserves the right to disqualify Respondents that are unwilling or unable to meet these credit requirements.

Use of a funds transfer agent and a Funds Transfer Agent Agreement ("FTAA") in order to fulfill payment obligations may not fulfill SCE's collateral requirements. Respondents in such case will have to arrange for additional collateral.

5. Evaluation Criteria

This RFO will utilize a single pricing value process to assess of all offers based on SCE’s most recent market forecast. All Offers will initially be assessed for conformance with the requirements set forth in these RFO Instructions. Respondents are responsible for the accuracy of all figures, calculations, and representations. In addition to the foregoing, there will be both quantitative and qualitative considerations involved with evaluating Offers in accordance with the SCE Bundled Procurement Plan (BPP). Any Offer within this RFO will be considered a final Offer which cannot be modified by Respondent, and which shall be subject to SCE's acceptance, execution and delivery, as determined by SCE in its sole discretion.

5.1. Quantitative Evaluation

The valuation of each Offer considers cash flow components for both cost and revenue. These components are then netted and discounted to yield a Net Present Value ("NPV") for each Offer. The NPV is compared to other Offers or potential combinations of Offers to find the “Least Cost” selection set which meets SCE’s minimum procurement obligation. For this RFO, SCE will be assessing the costs and benefits associated with each Offer; which include capacity payments, natural gas toll, forecasted market implied heat rate, debt equivalence, potential credit and collateral adders, and SCE’s ascribed RA and Energy benefits. SCE will then select a set of Offers with the goal of minimizing the cost to SCE’s customers, while meeting the defined needs, subject to a set of constraints such as counterparty volume limits.

5.2. Qualitative Evaluation

In addition to the quantitative factors described above, there are other factors which may impact the selection of an Offer. These may include, among other factors, project viability, location within a Disadvantaged Community ("DAC"), adherence to the parameters for this RFO, offers for flexible capacity, Offers for
local capacity, changes to the RFO Documents, counterparty concentration and creditworthiness, and OTC compliance considerations.

6. Solicitation Schedule

It is envisioned that the process to evaluate the RA Capacity Only and Import Capability products will be quicker than the Toll and CHP Products. While a deadline is set below, SCE intends to make selection notifications sooner when feasible. The following are key dates associated with this RFO.

7. **Offer Submittal Instructions**

Respondent must submit each of the applicable RFO Documents by the deadlines described in the RFO Instructions and in all cases in accordance with the terms of these RFO Instructions. **Respondents must submit RFO Documents via email to SCE at RFO@sce.com and copy the IE at kjoliver33@gmail.com and waynejoliver26@gmail.com.**

Hard copies of documents are not necessary. All documents will be made available through the initial RFO launch communication. All forms submitted for consideration must be in their original format, i.e., not converted to a Portable Document Format (PDF). Failure to provide the listed information may result in the Offer being deemed non-responsive and may disqualify the Offer from further consideration. All emails to SCE must be less than 10 megabytes (MB) (inclusive of all attachments). SCE will not be required to consider documents received after the applicable due dates and times due to unsuccessful delivery of such documents.

**7.1. Submission of Offers**

In order to have a complete and conforming Offer submittal package, a Respondent must provide the following documents as electronic attachments to the emailed Offer by the Offer Submittal Deadline:

1. A fully completed Offer Workbook or Workbooks;
2. A partially executed Non-Disclosure Agreement (NDA), unless Respondent already has in place an evergreen NDA with SCE (please note this on offer submittal);
3. For all RA Capacity Only Offers (SCE purchases and sales) - A completed pro forma RA Confirmation (Exhibit B1) with all the relevant data fields filled in. Modification to SCE Sale confirmations will **not** be considered. Limited modification to SCE Purchase confirmations may be considered however, given the timeline associated with this solicitation, modifications to SCE’s pro forma are not preferred;
4. **For SCE purchases only** – A partially executed or minimally modified Enabling Agreement, unless Respondent has already executed an Enabling Agreement with SCE;

5. All Respondents providing Offers for SCE to purchase a CHP or Toll Product must in addition submit a RA Capacity Only Offer; and

6. If Respondent is a government entity, an unexecuted draft Certificate of Authority including all applicable exhibits.

SCE will not accept Offers received after the Offer Submittal Deadline. SCE will only consider submissions that, as of the submittal deadline, constitute complete and conforming Offers. By responding to this RFO, each Respondent agrees to be bound by all terms, conditions and other provisions of this RFO (including these RFO Instructions) and any changes or supplements to it that may be issued by SCE.

### 7.2. Binding Award Notification

By the Selection or Shortlisting Notification Period, SCE will notify Respondents if their Offers have been contingently selected or shortlisted. Upon such contingent selection, such Offer become binding on Respondent and Respondent may not modify, alter, withdraw or otherwise revise such Offer. SCE selection is contingent upon consultation with SCE’s Procurement Review Group (“PRG”), final SCE management review and approval, successful negotiation of the Transaction Documents, and SCE’s execution and delivery of the applicable transaction Documents.

The Shortlisting process is intended to provide additional time for clarification and refinement relating to, but not limited to Toll and CHP Offers, if necessary. SCE reserves the right during this period to review all aspects of the Offers that could potentially lead to better NPV. The price, quantity and parameter during this period shall not exceed the Respondent’s initial offer on or before the Offer Submittal Deadline. Once the Offers are clarified or negotiated, subsequent contingent selection notification will be similarly provided.

### 7.3. Execution of Confirmations, Enabling Agreement, and Certificate of Authority

By submitting an Offer in SCE’s RA RFO, Respondent agrees to execute a Confirmation, Enabling Agreement (if applicable), and Certificate of Authority (if
applicable) consistent with the terms of the Offer(s) submitted by the Respondent and contingently selected by SCE, and containing such terms and conditions as may be mutually acceptable to SCE and the Respondent on or before the Execution Deadline. The Certificate of Authority must be executed by the Respondent on the same date as the RA Confirmation and Enabling Agreement are partially executed by the Respondent. The Confirmation and Enabling Agreement will only be considered executed once authorized officers of both SCE and the Respondent have executed and delivered the Confirmation and/or Enabling Agreement.

For any registration or access issues, please contact support@poweradvocate.com

any special characters, such as *&#, and utilize the following naming convention: OfferorName_ProjectName_FileName. For example:
